ABOUT GLOVE GUARD LP

Glove Guard LP is committed to providing quality products that meet the basic needs of keeping up with required personal protective equipment. Located in Highlands, Texas, USA, all of the Limited Partners have been with the Glove Guard® product since the beginning, Glove Guard LP was founded in August 1999 and maintains a strong commitment to manufacturing products that improve working conditions and promote safety on the jobsite.

Our strategy has been to listen to people as they've shared their needs for specific solutions. In response, we have developed, adapted, and manufactured unique products to meet those needs. We aspire to continue to listen, innovate, and manufacture unique solutions.

Glove Guard LP has a dedicated staff of personnel who genuinely care and are ready to assist both direct and indirect customers, yet we only sell through distribution. We manufacture products but aim never to lose sight of people.

AREAS OF EXPERTISE

Glove Clips | We are the original manufacturers of the Glove Guard® clip and provide a variety of glove clips to help keep gloves close and secure.

Cord Management | From hooks to rails we have lots of options to choose from to help keep cords and cables up and out of harm's way.

Hard Hat Accessories | Our products turn your hard hat in to a functional part of your personal protective equipment that keeps gear together.

Utility Bags | Keep your necessary PPE or personal items tucked away in one of our versatile utility bag designs.

Safety Solutions | All the extra things that make your daily task just a little easier and safer.

Heat Stress | Being from Texas we are no strangers to heat. That's why we provide products that keep you cool on the hottest of summer days.

RETURN ON INVESTMENT

1. Use of Glove Guard® products reduces direct and indirect costs associated with hand injuries. If personal protective equipment is available, it will be utilized.

“Use of the Glove Guard® clip has enabled us to far surpass our initial expectations. It has become as common as hard hats and safety glasses. Recordable hand injuries have been reduced as much as 86%. Thanks for your continued support and assistance in making our site safer and more cost efficient.”

— Polymers Group, Mont Belvieu Plant

2. Use of Glove Guard® products reduces glove replacement costs and the costs associated with environmental cleanup. The redundant breakaway also provides a level of reduced liability.

In the Houston, Texas area, several general contractors on major building sites require Glove Guard® products for all contractors that work on the premises because they reduce glove loss and keep gloves readily available. The strong grip of the product ensures that the items stay attached instead of just falling off, and the redundant breakaway reduces the possibility of attached items pulling an employee into machinery.

“In the last 3 months, about 80% of the glove replacement cost is due to lost or misplaced gloves. Your product will help greatly reduce that number.”

— Darren Matthews

3. Use of Glove Guard® products along with a company’s safety incentive program combines the dollars spent with tools that help accomplish the safety goals.

Major companies are using Glove Guard® products as safety incentives with their logo, safety program’s slogan, or one of our safety slogans to get their safety message across while providing a tool that actually helps accomplish the safety goals.

GLOVE CLIPS

GLOVE GUARD® CLIP

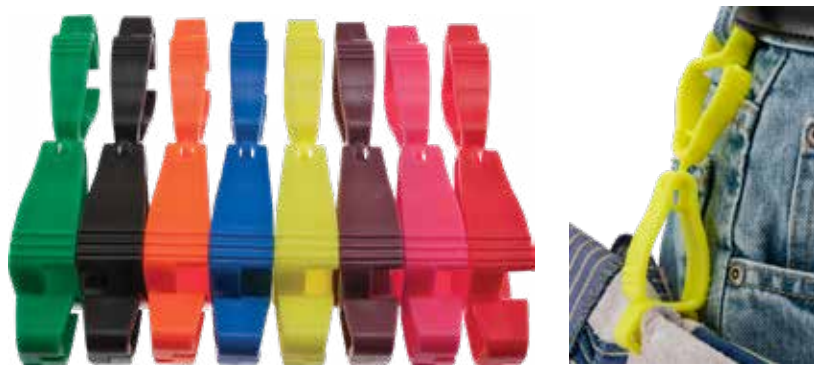

The Glove Guard® clip is the original glove clip that features a flexible 15 lb redundant safety breakaway. The strong, interlocking teeth of both the small and large ends provide a superior grip to clothing and attached items. The Glove Guard® clip is made from an engineered grade material that holds its memory, resists flex-fatigue, is non-conductive, and non-corrosive. To use, attach the small end to your belt loop or directly to clothing, and clip the large end to your gloves. Made in the USA.

Custom imprinting is available for this product. For more information please see page 20.

HANDI KLIP® CLIP

The Handi Klip® glove clip uses a ball & socket connection that can be reassembled if pulled apart. The connection also provides a 25 lb breakaway. The clip can withstand the brief flash temps of a fire, and the oversized jaws grip even the largest pairs of gloves. Made in the USA.

Custom imprinting is available for this product. For more information please see page 20.

UTILITY GUARD® CLIP

The Utility Guard® glove clip contains the same features and robust design as the Glove Guard® clip but uses a belt clip instead of a small clamp to attach to the user. To use, slip the belt clip over your belt, pocket, or harness. Then attach your gloves or towel with the large clamp. Made in the USA.

Custom imprinting is available for this product. For more information please see page 20.

OKTOLOCK® CLIP

PART NUMBER	COLOR
OK0203BK	BLACK
OK0203YW	YELLOW

The OktoLock® clip is made in the USA out of a strong, durable, and flexible PC-ABS plastic capable of holding up to 75 lbs and resists flex-fatigue. Its unique latching design securely fastens cords, hoses, or cables to railings, pipes, scaffolds, or lifts. Designed with users in mind, the OktoLock® clip takes potential trip hazards and securely contains them in a safe, elevated location.

Custom imprinting is available for this product. For more information please see page 20.

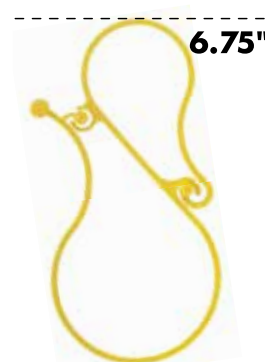

OKTOLOCK® CLIP XL

The new OktoLock® clip XL expands your capabilities to reduce trip hazards on the job site. Featuring large loop openings and a 250 pound load rating, the OktoLock® clip XL easily fastens to standard angles, 2x4s, square or round handrails, and scaffolding. The dual latching feature at the end of each loop ensures that cords, cables, and hoses are securely fastened once elevated.

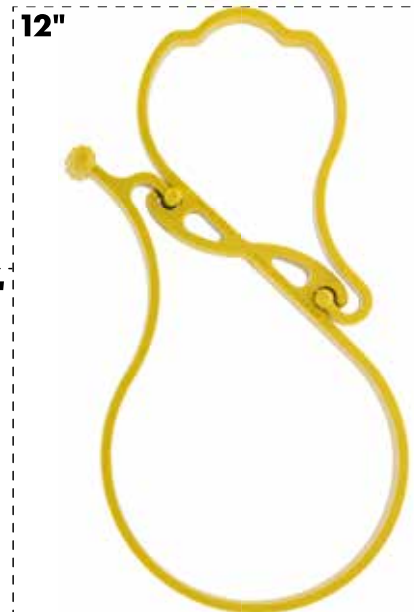

Part Number | OK0406YW

OKTOLOCK® CLIP

OKTOLOCK® CLIP XL

CABLE RAIL

Cable Rail provides the perfect solution to safely handling and managing cable runs in any industrial setting. The Cable Rail elevates and separates smaller cables by placing each one in its own groove. Its unique, reverse hook arrangement allows cables to be quickly loaded and unloaded. Cable Rail can be directly surface mounted with two screws or attached to poles and columns with its cable tie features. It is available in two sizes.

Part Number | CS-CR, holds five 12AWG cables up to 1/2" D

Part Number | CS-CR HD, holds cables up to 1.25" D

CS-CR

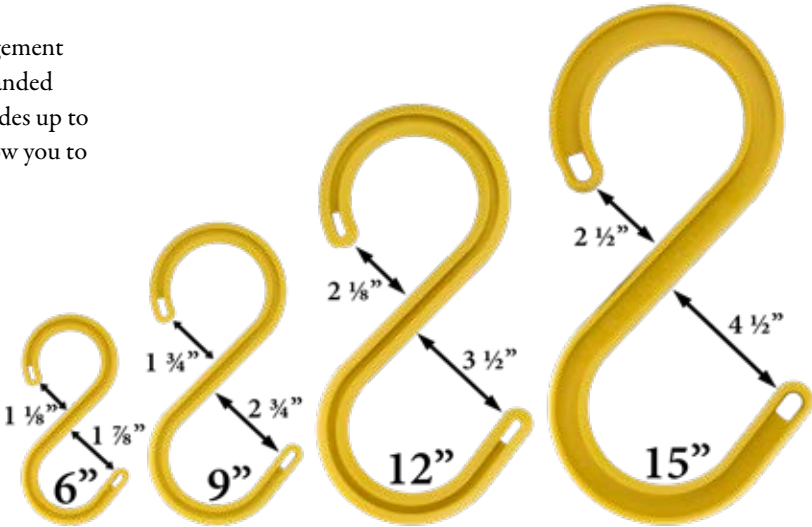

CS-CR HD

SAFETY HOOKS

Safety Hooks are an ultra-strong, easy to use cable management solution. The open-ended design allows for quick, one-handed installation, while the glass-filled polyester material provides up to a 340 lb load rating. The molded-in holes at each end allow you to secure the hook and cables with plastic cable ties.

HARD HAT ACCESSORIES

GOGGLE GUARD® CLIP

The original 80 series Goggle Guard® clip was first introduced in 2014. Originally developed as a simple solution to secure goggles when not in use, the clip quickly gained popularity among industrial workers who were looking to stow various eye protection when getting on and off the job. Wondering where to place the extra pair when swapping between clear and shaded safety glasses resulted in misplaced glasses. Misplaced glasses resulted in workers doing the job without proper eye protection. The implementation of the Goggle Guard® clip not only kept eye protection close by when needed, but it reduces loss of safety eyewear and the associated replacement costs.

Custom imprinting is available for this product. For more information please see page 20.

PART NUMBER	COLOR

HAT GRABBER®

The Hat Grabber® hard hat component offers you the most comfortable and secure way to wear a hard hat. Made from a soft, flexible plastic, the fingers gently hold onto your head allowing the hard hat to be adjusted for a loose, comfortable fit. Using the Hat Grabber® hard hat component reduces neck strain, headaches, and discomfort. To install, just wrap the Hat Grabber around the suspension system and buckle together. Made in the USA.

BOTTLECHOCK®

OVERVIEW

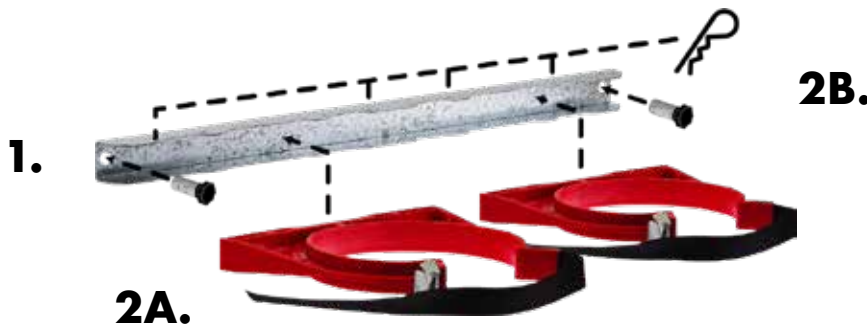

Use of the BottleChock® restraint is all about prevention. A gas cylinder hitting the ground can be disastrous, and yet all too often they are being "secured" by a loose chain. By conforming to the bottle and restricting all forms of movement, the BottleChock® restraint takes an extra step in ensuring your cylinders are fully secured.

Features

- Completely Restricts Cylinder Movement
- Quick Cylinder Change Over
- Available in a range of sizes
- Flexible design makes it a "Snap" to place cylinders

EASY 3-STEP INSTALL

Place pins in the inner holes for smaller cylinders.

Place pins in the outer holes for larger cylinders.

1. Secure the bracket with bolts of any length to suit your application. Bracket holes suit 3/8" bolts or 5/16" bolts for small kits.

2A. Fasten the restraint into the bracket.

2B. There are two pins for each restraint.

3. Insert pins, and the restraint system is ready to use.

SINGLE CYLINDER BRACKET

The single cylinder bracket is available in galvanized or stainless steel and is offered in four sizes.*

CUSTOM IMPRINTS

CUSTOMIZE YOUR CLIPS

Imprint your company name, logo, contact information, or even a unique safety slogan!

Custom imprinting available on:

- Glove Guard® (GG) Clip
- Utility Guard® (UG) Clip
- Handi Klip® (HK) Clip
- Utility Catcher® (UHC) Clip
- Goggle Guard® (GGG) Clip
- Glove Catcher® (GC) Clip

Imprints can be up to two colors and printed on both sides of the Glove Guard®, Handi Klip®, and Utility Guard® clips.

It's Simple!

Gear always looks better with your logo on it. If you haven't customized your clips yet, now is a perfect time to start! Customization is an easy and fast process with production taking up to 7 business days after confirmation.

Process and Requirements

Send all email inquiries to safety@gloveguard.com with a file of what you would like imprinted on your clips. Please be sure to provide what product(s), quantity, colors, and sides you would like imprinted.

When we receive your inquiry with the required information, we will send a paper proof for your approval. Once we have a signed paper proof and a confirmed purchase order from your distributor, production will take up to 7 business days before shipment.

All imprint orders require at least a 50 unit minimum and other setup fees may apply.

SAFETY SLOGANS

1. Pick from one of our 9 Safety Slogans to enhance your safety programs and to remind workers about the importance of safety.
